nam sit, an prima, an secunda, an tertia ab anni principio, eandem enim coniunctionem siue oppositionem in posteriori resum mes instrumento, perq; eam traduces filum, quod si incidit terminum eclipticum, siue in capite, siue in cauda illud accedat, vbiq; tandem recta illius cyfra inuenitur, certus es de possibilitate eclipsis, si modo id media coniunctio vel oppositio admittit. Quomodo vera coniunctionum vel oppositionum possibilitas agnosci debeat, alibi est dictum. Vt vero terminos eclipticos rectius perdiscas, sciendum est Solis fore eclipticum, quoties filum huiusmodi aream  in quibus  character reperitur incidit, & hoc in die artificiali tantum, Lunæ vero deliquium fit, quoties filum talem  aut talem  figuram intro rapitur, sed nocturna sit illa oppositio oportet.

EXEMPLVM  
CAROLI  
Imperatoris

¶ Quod si in natiuitate Cæsarea indicem X Y dirigis super diē o horas 22, minuta 54 Ianuarii, tum rotam hanc suo loco dederis, annus enim nondum elapsus est. Sic ostensor orbis superni Z V diei 11, horis 23 minutis 14 admoue, & locata erit pro vsu totius anni. Iam si instrumentum prius inspexeris 12 Maii die  media comperies, quintam in ordine, quare si filum per quintam  instrumenti secundi ducis, ostenditur per illud in gyro Mensis Maii dies 13, hora 20, m̄ 10 fere. Verum Bissexti ratione demes hic diem vni, & restabunt dies 12. Quoniam vero iuxta  hanc 5 inuenitur cauda, & hoc in instrumento priori, eclipsis, vt fiat putandum est. Proinde sequens etiam instrumentum erit inspiciendum, (filo super oppositione 5 perseverate) vtrum terminos Lunæ eclipticos filum comprehendat, in cauda quinta, & certe comprehendi videtur, ideo citra dubium asserueris Lunam in hac  delinquere. Attamen, quia diurna illa  est, ea propter Lunam sub horizonte consistere necessarium est, nec fieri potest vt nobis appareat illa eadem de causa. Reperitur præterea  quedam in Maio, & hæc 28 die Mensis eiusdem, coniunctio autem sexta hæc est, ab anni principio, contingens ferè caput Draconis sextum, quocirca filum pex sextum instrumenti sequentis coniunctionem si educitur, idem demonstrat diem 28 in circulo Maii, horam quoq; 14. Bissextu propter dies 27 accipitur. Nunc si videatur caput draconis sextum quoq; terminus eiusdem eclipsis solaris a filo contingi cernitur, adeo vt oporteat Solis deliquium fieri, hoc autem intelligitur secundum  mediam. Verum quia vera circa noctis medium euenit, veluti sequentia docebit, idcirco penes nos conspici nequit. At 6 Nouembris die  vndecima, circa draconis caput duodecimum offenditur, quam si per instrumentum sequens examinas, filum in draconis capite 12 mo terminum eclipsis Lunaris scindit, ea igitur  sine dubio, quia in nocte euenit nobis, cõspicua est.

EXEMPLVM  
REGIS  
FERDINANDI

Exemplum  
Regis FERDINANDI

¶ Rex FERDINANDVS eandem cum Cæsare radices habet natus, quapropter rota X Y indiem o, hora 22, m̄ 54 statuitur, & deinde filum per annum educitur tertium in limbo eiusdem rotæ, rursusq; ostensor subducitur, & orbis ille rectificatus est. Superiorem pariter orbem hoc modo dispone, adducens primo radici quæ est dies 17, hora 23, m̄ 14. Deinceps tertio anno. Post hoc instrumentum intuenti primum occurrit secunda  die Martii 12 fieri, tertiam attingens caudam, Ideo videndum est, vtrum Lunæ eclipsis accideret possit. Iam si per secundam  tendis filum in instrumento posteriori, cernis quod idem incidat eclipsis Lunaris terminum nequaquam, ob id neq; eclipsis speranda est, hoc intelligendum est, quo ad mediã  quo ad verã adhuc fieri potest, vt terminũ incidat eclipsis contingat, id quod sequentia satis aperiunt. Adhuc eodẽ anno die 27 Martii  tertia caput draconis quartum contrectat, quapropter secundi instrumenti filum per  tertiam directum ostendit in gyro Martii diem 27, exteriori vero in limbo horas 4. Præterea terminum solaris deliquii quarto in capite attingit, quamobrem certo eclipsis asseritur futura Solis, nisi accideret autem circa noctem mediam, sicuti scies consequenter, ob id nullam speraueris. Eadem ratio in reliquis est vniuersis.

Enunciatum

ENUNCIATVM VICESIMVM QVAR.

Cognito iam eclipsis die, horam quoq; & minutũ  nis vel  nis mediæ euenientis, contemplari.

ENTENARI RADICEM PERspice in eadẽ qua prius soluisti, coniunctionis scz Lunæ & Solis tabula, quam mox in limbo instrumenti præsentis require, ab hora meridiana scz 12 ordiens, Inuentam super Q ostensorẽ loca, Annum post hac residuum & currentem in limbo rotulæ Q querens, cum P ostensore secundæ rotæ signa. Nũc horam & minutũ  nis vel  nis mediæ cogniturus, redi ad priorem figuram, in qua distantiam eiusdem a prima Ianuarij coniunctione, obserua, si coniunctionem vis, tum eam in limbo exteriori cum numeris expressam vestiga, per quam simulac ductum filum fuerit, horam & minutum in limbo referet. Pari ratione & oppositionem in Ianuario præcedere coniunctionem, eam in hoc instrumento, sicut etiam in superiori, cum  insignitam esse. Documentum huius rei sit hoc planius.

Cautela  
uanda qua  
præcedit  
in principi  
ni.

Exemplum CAROLI

¶ IMPERATORIS CAROLI radix fuit dies o hora 22 m̄ 54. In limbi igitur ambitu horas 22 m̄ 54 pomeridianas quærato, quo mox indices Q & P vtrosq; ducito. Anno o residuo superante, & rotæ sic omnes suis redditæ locis fuerint. At cū enunciatum vicesimum secundum dederit 14 Februarij natiuitatem præuentivalem, vt ducitur, quæ secunda est  post primam anni coniunctionem, filum per secundam oppositionem secundi limbi tendes, & in horarum limbo, horas o m̄ o videbis, tempus, quod mediæ coniunctionis verum est.

Exemplum  
CAROLI  
Imperatoris

Exemplum FERDINANDI

¶ FERDINANDVS ROMANORVM Rex, quando eundem cum Cæsare centenarium possidet 1500 scz index Q in hora 22 m̄ 54 permanet. Verum, quia natus tertio anno currenti dicitur, P ostensor tertio anno in limbo Q rotæ applicandus est. Enunciatum 22 docuit natiuitatem cõiunctionalem esse, quia proximè eam antèiuerit coniunctio, 25 scz Februarij, quæ fuit secunda in ordine, propterea eadem in instrumento lustranda est, filumq; per eandem ducendum, quod horam 15 m̄ 37 post meridiem, diẽ autem 25 in quo mediã illa coniunctio facta est, indicat. Non aliter acturus es in annis Christum præcedentibus. Indicem enim Q super radicem centenarij, P super annorum reliquias inducens, Filum deinde per coniunctionem vel oppositionem extendis, quod extensum, horas & minuta in limbo signat.

ENUNCIATVM VICESIMVM QVIN

Argumenta Solis & Lunæ mediã, per quæ tempus veræ alicuius coniunctionis aut oppositionis discitur, consequi.

VPERIVS VBERRIME IN theorica Solis tractata est Argumenti mediã cognitio, ad quem locum te relego, breuitati consulens. Similiter Lunæ motus, Argumentumq; eius, instrumentum proprium definiuit abunde, que repetenda tantum admoneo, cum pluribus ante acta persequi, & molestũ legenti, & futile tradenti sit. Sed quo exempla nostra finem perfectiorẽ sortiantur, pauca adhuc addentur. ¶ In Cæsaris præuentione, sic enim loquitur, quæ ortum eius anteibat, Solis argumentum mediũ esse depræhenditur ex enunciato 12, s̄ 8 ḡ 1 m̄ 58. Lunæ Argumentum s̄ 2 ḡ 8 m̄ 18. ¶ In Regis autem coniunctione (nam  natum præcessit) 25 die, 15 hora, 31 mi. Februarii, Argumentum Solare medium, habet s̄ 8 ḡ 13 m̄ 42, Argumentũ Lunare, s̄ 4 gra, 16 m̄ 34.
