TABULARUM RUD-

sunt unicæ, ad annum scil. 1600 post Christum completum. Igitur si tempus proponitur, posterius anno 1600, ratio collectionis non differt ab hæctenus traditâ: sin prius; exquirendum erit intervallum, id inter & annum 1600, subtractis annis Incarn. minoribus, à 1600, additis annis ante Incarn. ad 1600. Tunc cum millenariis centenariis & singulis infra 100 fit collectio: summa collecta auferatur ab Epocha, quam Fixa proposita habet in Catalogo. Aliter etiam sic, Collige locum primæ V, ut unius ex Planetis; eiq; loco adde arcum distantia fixæ propositæ à primâ V, quam illa habet in Catalogo. In Fixarum quidem & Apogæi Solis millenariis ultimis angustia spaci, quod initio non satis consultò sumus admissi, redegit nos ad numerationem Graduum non in signa collectorum, sed continuam: & in Apogæo, Secunda per notas partium assis fuerunt exprimenda Ergo qui his ultimis millenariis vellet uti, prius deberet reducere excerpta ad numerationem usitatam: sic etiam pro caractere signi, in quo invenitur Punctum illud tardum, scribet numerum signi antecedentis completi, ad sinistram, ut fieri possit additio commoda.

Super hoc situ & dispositione carcerum, unde motus omnes profiliere, locus esset amplissimus philolophandi: si materia instituta pateretur. Sed rejicienda est hæc speculatio in tractatum alium; ubi rationes & fundamenta explicabuntur, ex quibus Epochæ Ptolemaici temporis erutæ sunt. Nunc institutum agamus.
